### PROFESSIONAL SUMMARY

Second-year Engineering student focused on continuous learning, teamwork, and developing innovative web solutions that enhance user experience and support business growth.

### INTERSHIPS

#### CPFMI-Plus Formation

July 2025-August 2025

#### Full Stack Developer

Developed a secure multi-user MERN web platform during a one-month internship, implementing role-based access, authentication, password recovery, user management, certification handling with PDF generation, and client evaluation features.

#### Yalla Digital Academy

February 2024-July 2024

#### Full Stack Developer

Collaborated on developing Yalla Cr  a, a React, Node.js, and Express.js web platform with role-based access, secure authentication, user and content management, and interactive student features, contributing to both backend functionality and 3D visual design using MySQL, Photoshop, Figma, Blender, Mixamo, and Ready Player Me.

#### Hammamet Informatique Services

January 2023-February 2023

#### Full Stack Developer

CDeveloped a coffee shop management web application using Angular, Firebase, JavaScript, HTML5, and CSS3, featuring reservation handling, client-staff communication, and admin management tools, while also creating branding, uniforms, and promotional videos with Adobe tools.

#### SKF Group

January 2022 - February 2022

#### Supervisor

Completed an internship that provided hands-on professional experience, enhanced practical and teamwork skills, and offered exposure to enterprise management software, Excel, and multi-department operations.

### PROJECTS

#### SMART CPFMI

July 2025-August 2025

A part of a platform implementing my specific tasks, including authentication, user profiles, certifications, evaluations, and trainer profile consultation.

#### Interactive Quiz

February 2025-Mars 2025

A web application that enables users to participate in a quiz and to create, modify and delete their own quizzes.

#### RoleAccessDashboard

February 2025-Mars 2025

A web application that enables administrators to manage users and products with role-based access control.

#### Grading Management

November 2024 - December 2024

An application that centralizes the management of grades, subjects, and classes, with role-based access control.

#### Master Stack Pro

November 2024 - December 2024

A platform to manage users and products within a company.

#### Yalla Crea

February 2024-July 2024

This platform was created for Yalla Digital Academy to consolidate all information.
