PROFESSIONAL SUMMARY

I am an engineering student. Committed to continuous learning and staying updated on emerging trends in technology and related fields, I thrive in collaborative environments and seek opportunities for professional growth and networking. I am dedicated to delivering intuitive user experiences and innovative web solutions that drive user engagement and business growth.

INTERSHIPS

CPFMI-Plus Formation   **July 2025-August 2025**
Full Stack Developer

Worked in a team of two to develop a multi-user web platform using the MERN stack, featuring secure, role-based access for administrators, clients, and trainers.

Key contributions in my one-month internship:
-Designed dedicated spaces for each user type
-Implemented secure authentication with role verification and password hashing
-Developed a password recovery system with automatic redirection for a smooth user experience
-Enabled users to update their personal information safely
Administrator features:
-Managed certifications (create, edit, delete, search, and generate PDF versions)
-Implemented a unique certification numbering system
Client features:
-Added an evaluation system for training sessions with optional anonymity and review deletion
-Allowed clients to view and explore trainer profiles

Yalla Digital Academy   **February 2024-July 2024**
Full Stack Developer

Worked in a team of two on the development of Yalla Créa, a web platform built with React, Node.js, and Express.js.The platform offers different user spaces, including visitors, administrators, content creators, and students.

Main features include:
-Role-based access and secure authentication with password recovery
-Management of users, pre-registrations, jobs, domains, events, partners, and certifications
-Dedicated interfaces for content creators to manage videos, edit profiles, and respond to comments
-Student access for viewing opportunities, interacting with content, and engaging with creators
I also contributed to the visual and 3D design using MySQL, XAMPP, Photoshop, Figma, Blender, Mixamo, and Ready Player Me.

Hammamet Informatique Services   **January 2023-February 2023**
Full Stack Developer

Developed a web application for coffee shops to help organize daily operations and resolve issues related to reservations and communication between clients, managers, and staff. Built using Angular, Firebase, JavaScript, HTML5, and CSS3. For the multimedia section, I used Adobe tools for design and video production.

Key contributions during my one-month internship:
-Developed dedicated spaces for visitors and administrators
-Designed the staff uniforms and coffee shop branding
-Created promotional videos for marketing and sponsorship
-Enabled administrators to manage staff, clients, and reservations
-Allowed visitors to make and manage reservations easily

SKF Group   **January 2022 - February 2022**
Supervisor

Completed an internship that provided my first professional experience, allowing me to explore the
workplace, gain practical skills, and understand company operations.

During this internship, I had the opportunity to:
-Discover the dynamics of the professional world
-Develop practical skills and apply academic knowledge
-Strengthen my confidence through hands-on work and collaboration
-Participate in team meetings and daily operations
-Work with enterprise management software and Excel for data organization
-Rotate across different departments, spending one week in each to understand their functions

PROJECTS

SMART CPFMI   **July 2025-August 2025**
A part of a platform implementing my specific tasks, including authentication, user profiles, certifications,
evaluations, and trainer profile consultation.

Interactive Quiz   **February 2025-Mars 2025**
A web application that enables users to participate in a quiz and to create,modify and delete their on quizs

RoleAccessDashboard   **February 2025-Mars 2025**
A web application that enables administrators to manage users and products with role-based access control.

Grading Management   **November 2024 - December 2024**
An application that centralizes the management of grades, subjects, and classes, with role-based access control.

Master Stack Pro   **November 2024 - December 2024**
A platform to manage users and products within a company .

Yalla Crea   **February 2024-July 2024**
This platform was created to Yalla Digital Academy to considates all informations

EDUCATION

International Tunisian Buisness School   **September 2024 -Present**
Diploma of Engineering Studies

Higher Institute of Technological Studies of Nabeul   **September 2021 -July 2024**
Bachelor of Information Technology, specializing in Multimedia and Web Development (Honors)

Beni Khiar High School   **September 2017- July 2021**
Bachelor's Degree in Experimental Sciences

PROFESSIONAL SKILLS

Web Frameworks: AngularJs/ReactJs/ExpressJs
Programming Languages: HTML/CSS/C#/Java /PHP/Python
Backend: NodeJS
DataBase: Firebase/SQL/SQL Server/MongoDB
Authentification:JWT(JSON Web Token)
Backlog Management: Scrum
Editors: Visual Studio/IntelliJ/Android Studio/Visual Studio Code
Multimedia: Adobe Photoshop/Adobe Illustrator/Adobe Premiere Pro/Blender/Figma

VOULTERRING

CAO ISET Nabeul Club
Human Resources Manager

September 2022-July 2023

Google Developer Student Club ISET Nabeul
Member

October 2021 – September 2022

AREA OF EXPERTISES

| Teamworking | Time Management | Communication |
| Responsability | Project Management | Critical Thinking |

PERSONAL INTERESTS

| Traveling | Reading Books | Playing Games |
| Listening to Music | Watching Movies | Cooking |
