Yalla Digital Academy   **February 2024-July 2024**
Full Stack Developer

Create a100% new identity for Yalla Digital Academy by developing a single platform that consolidates all information, enhancing the efficiency and management of the academy, due to the utilization of multiple documents and applications and the difficulty in school management.

Developed a 100% Comprehensive School Management Platform: Yalla Créa
- I built a platform to manage various school aspects, providing private spaces for the 4 stakeholders: administrators, students, content creators, and visitors.
- I utilized MVC architecture with the Express.js framework and Node.js runtime environment, allocating 85% to React.js and 15% to Three.js libraries, to upgrade flexibility, efficiency, and scalability with a MySQL database.

I have integrated a multimedia section featuring avatars and certifications to boost user engagement metrics by 30%.
- Planned prototypes using Figma and designed unique certificates using Adobe Photoshop, contributing to a 25% increase in user satisfaction.
- Employed Ready PlayerMe for avatars and Mixamo for animations, resulting in an immersive and interactive user experience that led to a 20% increase in user retention.

Hammamet Informatique Services   **January 2023-February 2023**
Full Stack Developer

Drove the organization to undertake a new project to develop and improve a website for a coffee shop named Coffee Corner, making it accessible for all ages and 100% simple for users.

Establidh a 100% simple Coffee Shop WebSite: MaCafé
improved a website for a coffee shop, allowing 100% clients to view all services offered by the café.
- Employed the Bootstrap framework, HyperText Markup Language (HTML5), Cascading Style Sheets (CSS3), and Firebase database with using a Bootstrap distribution.

Blended the Multimedia Section by 30%:
- Produced a 100% unique logo using Adobe Photoshop and Adobe Illustrator, and created posters and staff identity using Canva. Utilized the color palette: Dark Twig (#4F2710) and Sandy Beige (#C7AD89) in a 50% 50%

SKF Group   **January 2022 - February 2022**
Supervisor

Supervised the work across all company groups, gaining comprehensive insight into operations during their inaugural professional role.

- Actively participated in meetings to contribute to project planning and strategy, increasing effectiveness by 40%.
- Used proprietary software, achieving a 20% efficiency increase and enhancing team collaboration.

PROJECTS

RoleAccessDashboard   **February 2025-Mars 2025**

A web application that enables administrators to manage users and products with role-based access control.

Portfolio   **February 2025-Mars 2025**

Developed a personal portfolio to showcase my skills, projects, and professional growth as a software developer

Master Stack Pro   **November 2024 - December 2024**
